

SCHOOLS PARTNERSHIP PROPOSAL

CREATIVE EDUCATION FOR LOULÉ'S NEXT GENERATION

Creativity becomes confidence.

A phased partnership programme in music, art, media and urban sport — beginning with weekly Creative Clubs and building toward professional-level tuition, masterclasses and real creative releases.

ALCARVE

Executive summary

WHAT WE'RE PROPOSING

The Hub Academy is a creative education and urban-skills programme for children and young people, created through the partnership between **SoundBunker Algarve** — a professional recording studio — and **The Hub Culture**, its home venue in central Loulé.

We are inviting local schools to partner with us on a phased programme. **We are starting with Creative Clubs**: weekly after-school clubs in music and audio, art and digital media, and movement and urban sport, with a scout-style achievement patch system that makes progress visible and collectable.

Once clubs are established and trusted, the partnership extends into specialist provision — one-to-one music production leading to genuine commercial releases, DJ workshops, production masterclasses with established artists, singer-songwriter development, and equivalent pathways in media and sport.

We are not delivering a one-off workshop. We are building a pathway from a child's first session to a released track, a published portfolio or a leadership role.

In this document

01	Who we are & why this works	p3
02	Phase 1 — Creative Clubs (starting now)	p4
03	The patch & progression system	p5
04	Phase 2 onward — the specialist pathway	p6–7
05	Educational outcomes & curriculum links	p8
06	Safeguarding, compliance & risk	p9
07	Delivery model & what we need from you	p10
08	Investment, funding & access	p11
09	Measuring impact, reporting & next steps	p12

A NOTE ON THIS DRAFT

Figures, dates and staffing details marked **to confirm** are deliberately left open until we meet. We would rather agree them with you than present numbers that don't fit your timetable, your intake or your budget.

A WORKING STUDIO THAT TEACHES

Most creative provision for children is taught in a classroom with borrowed equipment. Ours is taught in the room where the work actually happens.

SOUNDBUNKER ALGARVE

A professional recording studio in central Loulé, with the live rooms, microphones, desks, decks and production software that working musicians use. Children record where records get made.

THE HUB CULTURE

The creative venue that houses the Academy — a space built around music, street art, skate and youth culture, already running workshops and community events for young people.

WHY THIS PARTNERSHIP WORKS FOR SCHOOLS

- **Real practitioners, not hobbyists** — sessions are led by people who work in music, media and sport professionally
- **Real equipment** — pupils use professional kit rather than classroom substitutes, at no capital cost to the school
- **Real outcomes** — every programme ends with something finished: a track, a portfolio, a performance, a filmed routine
- **A visible reward system** — collectable patches and progression stripes make effort legible to pupils, parents and staff
- **A pathway, not an event** — a child can start with one club and progress to mentoring, releasing and leading
- **Local and committed** — we are based in Loulé, we are not a touring provider, and we want long-term school relationships

OUR DIRECTION

Our vision is to create the Algarve's leading creative and urban-skills academy for young people — making creative education more accessible, building partnerships with schools, councils and youth organisations, identifying young talent, and working toward free opportunities for under-16s.

Phase 1 — available from **term to confirm**

CREATIVE CLUBS

Weekly after-school clubs, delivered in small groups, open to all abilities with no experience or equipment required. This is where every pupil begins.

CLUB	WHAT PUPILS DO	PATCHES EARNED
01 • Music & Audio	Singing, rap and vocal performance; songwriting; beat-making and production; professional studio recording; DJ skills; podcasting and voice-over.	Music Maker, DJ Crew, Performance
02 • Art & Digital Media	Responsible street art and lettering; drawing and mural design; photography and studio shoots; video and content creation; graphic design; exhibitions.	Art Explorer, Graffiti Crew, Photo & Media
03 • Movement & Urban Sport	Skateboarding fundamentals; balance, safety and progression; new tricks and first drop-in; breakdance and street dance; rhythm and freestyle; group routines and cyphers.	Skate Club, Team Player, Good Vibes

THE WEEKLY TIMETABLE

DAY	AGES	TIME
Tuesday	6–9	16:30–18:30
Wednesday	10–12	16:30–18:30
Thursday	13–16	16:30–18:30

- Maximum 15 children: three groups of five
- Groups rotate to a new activity each week
- Two-hour sessions, once a week
- All abilities; no equipment needed

WHERE IT HAPPENS

Every weekly club is held at The Hub Culture in central Loulé, with access to our professional studio and creative facilities, or at Loulé Skate Park for appropriate outdoor activities.

After-school clubs are not held on school sites.

SEE IT BEFORE YOU COMMIT

We are happy to arrange an Academy experience day for a single class or year group before any agreement is signed, so staff and pupils can judge the quality for themselves.

Earn it. Wear it.

THE PATCH & PROGRESSION SYSTEM

Inspired by traditional scout badges, pupils earn bold, collectable achievement patches as they develop skills and complete challenges. Each patch is heat-pressed onto their Academy uniform — a visible, wearable record of progress.

This matters more than it might sound. Progress is recognised through **commitment, participation and personal development** — not simply natural talent. A child who arrives with no ability and works hard earns as much as a child who arrives gifted. For many pupils it is the first time effort has been made visible.

PROGRESSION STRIPES

- **Discover** — try something new and learn the foundations
- **Develop** — build skills through practice and participation
- **Achieve** — complete a challenge, project or performance
- **Lead** — support others and become a positive role model

Phase 2 onward — following established clubs

WHERE IT LEADS: MUSIC & AUDIO

Creative Clubs are the entry point. For pupils who show commitment, the Academy opens into specialist provision that is genuinely professional — the same rooms, the same tools and, in some cases, the same distribution as working artists.

01

ONE-TO-ONE MUSIC PRODUCTION

LEADING TO REAL RELEASES

Individual tuition in production, arrangement, recording and mixing, built around the pupil's own material. Where a track reaches a releasable standard, we can take it through mixing, mastering and distribution so it appears on **Spotify and the major streaming platforms** under the young person's own artist name.

- Ownership, credits and royalties explained in plain language before anything is released
- Parental and school consent required at every stage
- Release is an outcome, never a promise made to recruit a pupil

02

DJ WORKSHOPS

GROUP AND PROGRESSION FORMATS

Beat-matching, track selection, reading a room, and performing a set — on professional decks rather than controllers alone. Progresses from first mix to playing at a school or community event.

03

PRODUCTION MASTERCLASSES WITH ESTABLISHED ARTISTS

GUEST-LED INTENSIVES

Sessions led by working artists and producers from our network, breaking down how a record is actually made. Guests and dates are confirmed per term — **artist line-up to confirm**.

04

SINGER-SONGWRITER DEVELOPMENT

WRITING, VOICE AND PERFORMANCE

For pupils who write. Lyric and melody craft, vocal technique, arrangement, and performing original material live — leading to showcases, recordings and, where appropriate, release.

THE SAME PATHWAY: MEDIA & SPORT

Music is the most developed strand because it sits in a working studio. The same escalation — clubs, then one-to-one, then masterclasses, then real published outcomes — applies across media and urban sport.

ART & DIGITAL MEDIA PATHWAY

- **One-to-one media tuition** — photography, video, editing and design built around the pupil's own portfolio
- **Masterclasses with working photographers, designers and filmmakers** from our network
- **Commissioned work** — pupils shooting and designing for real community events, venues and campaigns
- **Published outcomes** — exhibitions at The Hub Culture, published photo series, released short films and mural commissions
- **Street art progression** — from sketchbook and lettering to a legal, commissioned wall

MOVEMENT & URBAN SPORT PATHWAY

- **One-to-one and small-group skate coaching** — structured progression from first push to dropping in and landing tricks
- **Breakdance and street dance development** — technique, freestyle and crew work
- **Masterclasses and jams with established skaters and dancers**
- **Performance and competition** — filmed routines, cyphers, showcases and community jams
- **Filmed and edited outcomes** — crossing into the media strand, so pupils leave with footage as well as skills

CROSSOVER IS THE POINT

A pupil in the skate club can have their line filmed by the media club, soundtracked by the music club and exhibited at The Hub Culture. These are not three separate offers — they are one Academy with three doors into it.

SEQUENCING

We will not launch every strand at once. Creative Clubs come first and must be running well before specialist provision opens. Phase timings will be agreed with partner schools — **dates to confirm**.

WHAT PUPILS GAIN, AND WHAT YOU CAN EVIDENCE

Schools need more than "the children enjoyed it". Here is what the programme develops and how it maps onto what you already have to report.

PUPIL OUTCOME	HOW IT SHOWS UP
Confidence & self-expression	Performing, presenting work, taking creative risks in front of peers
Communication & teamwork	Collaborative tracks, group routines, shared exhibitions and crew work
Focus, discipline & resilience	Repeating a take, re-shooting, falling and retrying a trick until it lands
Problem-solving & independent thinking	Producing to a brief and a deadline; fixing what isn't working
Respect for people, equipment & spaces	Professional kit handled properly; responsible street art rather than tagging
A portfolio of creative work	Recordings, images, films, murals and footage a pupil can actually show
Career awareness	Direct contact with working professionals and real industry process

BENEFITS FOR THE SCHOOL

- Creative enrichment beyond the timetable
- Engagement from pupils who disengage academically
- Wellbeing and positive self-expression
- Practical media and technology skills
- Community participation and local visibility
- No capital outlay on equipment or space

CURRICULUM & CITIZENSHIP LINKS

The programme supports arts, music, ICT and physical education aims, and maps naturally onto citizenship and personal development work — teamwork, respect, community contribution and responsible use of public space.

We are happy to align documentation with your specific curriculum framework and reporting language — **framework to confirm with each school**.

Reaching the pupil who has decided they're not good at anything is the single thing we are proudest of.

SAFEGUARDING, COMPLIANCE & RISK

No school can sign off a partner on creative merit alone. This section exists so your safeguarding lead and business manager can assess us properly — and so we can supply every document you need before any pupil attends.

STAFF & SUPERVISION

- **Criminal record checks** — all staff and session leaders working with minors hold a current *registo criminal*; copies supplied to the school on request
- **Safer recruitment** — references taken and verified for every practitioner
- **Supervision ratios** — agreed per activity and age group; higher-risk activity (skate) carries tighter ratios — **ratios to confirm per club**
- **First aid** — qualified first-aid cover on site during sessions; certificate details on request
- **Designated safeguarding contact** — a named lead for the school to escalate to — Steve, Steve@soundbunker.pt

POLICIES & DOCUMENTATION WE PROVIDE

- Safeguarding and child protection policy
- Code of conduct for staff working with young people
- Written risk assessments per activity, including skate, equipment and studio use
- Public liability insurance certificate — **cover level to confirm**
- Accident, incident and near-miss reporting procedure
- Emergency and evacuation procedure for our venue
- Behaviour, anti-bullying and inclusion policy

DATA, IMAGES & CONSENT

- **GDPR compliant** — pupil data held only as necessary, for an agreed period, and never shared with third parties
- **Photo and film consent** — explicit written parental consent before any pupil is photographed, filmed or featured in promotion
- **Opt-out respected fully** — a pupil without consent takes part in everything and simply is not captured
- **Release consent handled separately** — publishing a pupil's music commercially requires its own specific parental agreement

ACTIVITY-SPECIFIC RISK

- **Skate** — protective equipment provided and required; progression gated by demonstrated competence, never by bravado
- **Street art** — legal, permitted surfaces only; materials age-appropriate and ventilation managed
- **Studio** — safe listening levels observed; equipment handling taught before use

DELIVERY MODEL & WHAT WE NEED FROM YOU

FORMAT	DESCRIPTION	BEST LOCATION
Weekly creative club	15 pupils in 3 groups of 5; rotating activities	The Hub / skate park
Academy experience day	Guided exploration of music, media and movement	The Hub / skate park
Specialist workshop	Follow-on small-group tuition in chosen interests	The Hub / skate park
One-to-one tuition	Individual specialist progression (Phase 2 onward)	The Hub Culture
Holiday/community project	Intensive creative projects and showcases	The Hub / skate park

WHAT WE BRING

- Qualified, checked session leaders
- All specialist equipment and consumables
- Risk assessments and insurance
- Patches, stripes and progress records
- Session planning and end-of-block outcomes
- Photography of the work, where consented

WHAT WE NEED FROM YOU

- A named school partnership contact
- Help sharing programme details with families
- Permission to distribute posters and leaflets
- Discussion of consent and access requirements
- Feedback on interest and pupils' experience
- An initial meeting to explore collaboration

ACCESSIBILITY & INCLUSION

We will adapt sessions for pupils with additional needs wherever practically possible, and would rather discuss a pupil's requirements in advance than turn anyone away at the door. Please raise access needs at planning stage.

INVESTMENT, FUNDING & ACCESS

Published Creative Club rates are below. Bespoke school partnerships and specialist programmes are discussed individually, according to format, group size and duration.

MODELS WE CAN WORK WITH

MODEL	HOW IT WORKS
Parent-funded	Families pay directly; the school shares programme information
School-funded	The school commissions a block as enrichment provision and covers the cost
Shared	School subsidises places so cost to families is reduced or removed
Grant or council funded	Jointly pursued funding covering all or part of a programme
Sponsored places	Local business or community sponsorship funding named places

OUR COMMITMENT ON ACCESS

Creative education should not be limited to families who can afford it. We are actively working toward free opportunities for under-16s, and in every model above we will ring-fence a number of funded or reduced-cost places for pupils who would otherwise miss out. We would ask the school to identify those pupils discreetly.

CREATIVE CLUBS — PUBLISHED RATES

OPTION	PRICE
Trial session	€15
Single session · 2 hours	€30
Monthly · one 2-hour session a week	€110/month
Termly · 12 sessions	€300
Sibling rate · per session	€15
Creative Starter Kit · one-off Uniform T-shirt, Black Book, Academy bag & graffiti marker	€35

All prices are exclusive of IVA. School-commissioned enrichment blocks, experience days, one-to-one tuition and masterclasses are quoted per programme — [to confirm with each school](#).

Any release-related activity in Phase 2 — distribution, mastering, artwork — is quoted separately and never bundled into a school fee without explicit agreement.

MEASURING IMPACT & REPORTING BACK

If a school is going to keep funding a programme, it needs evidence. We report on every block rather than leaving you to justify it on goodwill.

WHAT WE REPORT, PER BLOCK

- **Attendance and retention** — who came, who kept coming, who dropped off
- **Patches and stripes awarded** — per pupil, with the criteria met
- **Outcomes produced** — tracks, images, films, routines, exhibited work
- **Practitioner observations** — a short written note per pupil
- **Pupil voice** — start-and-end self-assessment on confidence
- **Safeguarding log** — incidents or concerns, reported immediately

REVIEW RHYTHM

- **Before we start** — planning meeting to agree aims and success measures
- **Mid-block** — brief check-in to flag anything early
- **End of block** — written report and a conversation about what to change
- **End of year** — full review, including whether to progress to Phase 2

If your school already reports against a particular framework, we will report into that format rather than handing you something to translate.

NEXT STEPS

01

A CONVERSATION

Thirty minutes with your head, enrichment lead or safeguarding lead.

02

DOCUMENTS FOR REVIEW

Policies, criminal record checks, insurance and risk assessments.

03

A FIRST BLOCK OF CLUBS

One rotating half-term block. We review progress and plan next steps together.
